

MEDICAL GRADE FABRIC MASKS

Return with tracking **BARCODE** for Hospital: Hospital **PROPERTY**.

www.lovemendingsouls.org

1. Remove all stickers, place barcode in bag to return with masks. Fold fabric for double cutting. Cut straps out of same fabric, (around) 1/2" x 35". Each strap will be SINGLE ply so this makes 4 straps.

NOTE: If you leave the blue and white together while cutting, you will create four (4) straps from the two (2) cuts made from the wrap.

2. Fold fabric for double cutting. Keep white and blue wrap together and each pattern cut will make two (2) of the outline below, keep together, **clips ok, NO PINNING!** Each cut produces one full mask of left and right pieces. Best to cut out 3-5 of the pattern, and to place side-by-side, but flip them 180 degrees so it almost makes a straight line. This minimizes the waste.

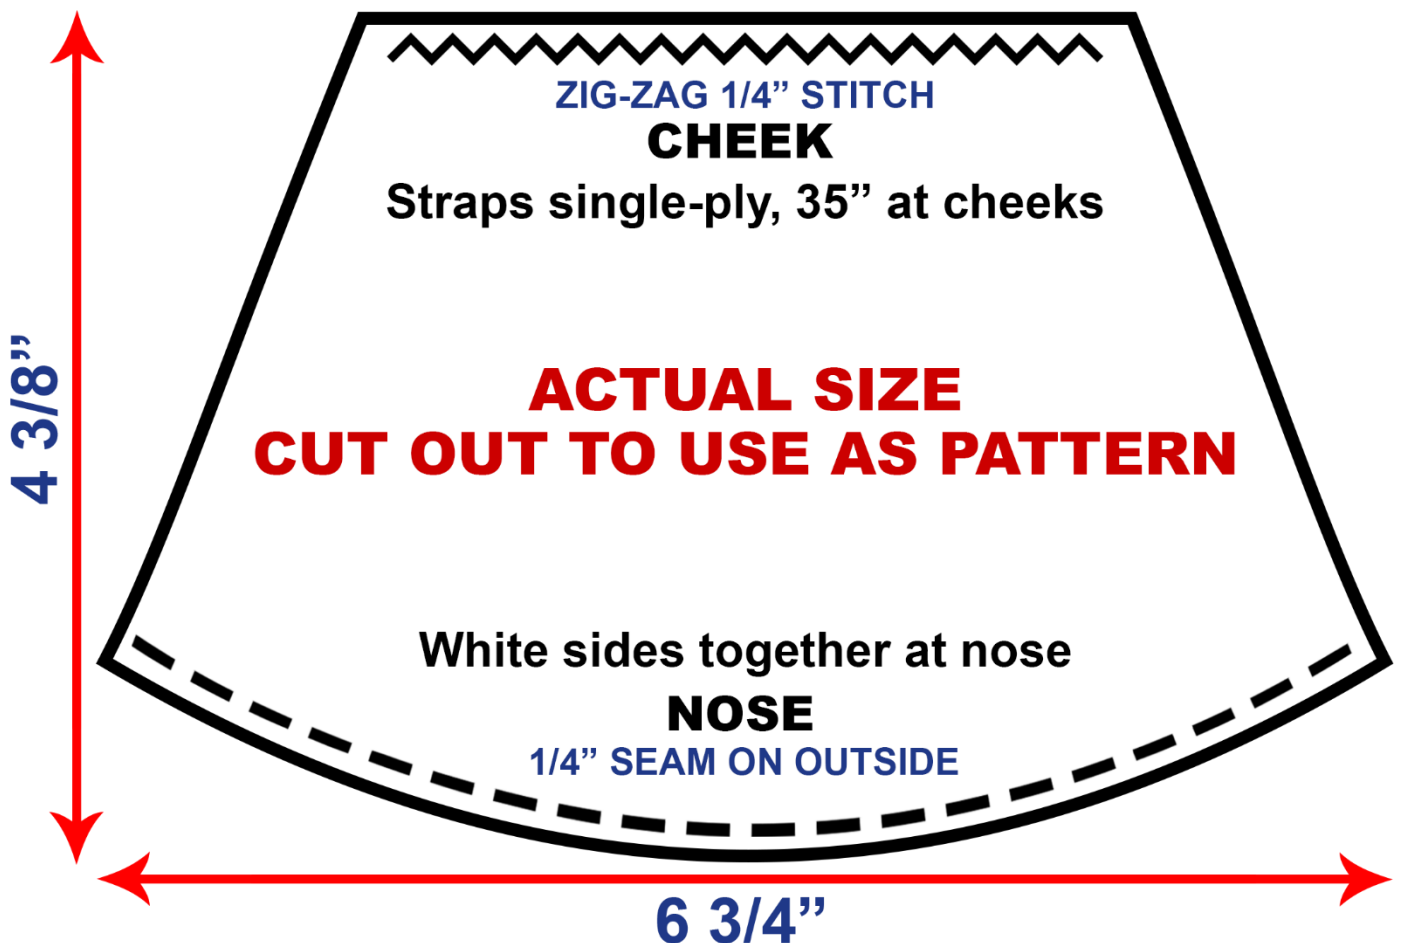

3. Layer two (2) cut pieces together with BLUE side out, leaving raw edge on outside.

4. Sew with a straight stitch along the curved edge (1/4" seam allowance) with Polyester thread.

NOTE: BE SURE TO SECURELY BACKSTITCH THE BEGINNING AND ENDS OF ALL STITCH LINES

5. Center the straps along the side edges and sew with a zig-zag stitch. Make as many as you can!!

-----1/2" STRAP ATTACHES THIS SIDE-----
